Work Experience

Child Care Assistant

Austin, TX

March 2023 to May 2023

When working as a child care assistant it was pretty awesome. I had to connect with each child and understand them and make sure they trusted me by me being a new face. I helped them get their things put away in the morning while also making them their breakfast. Once breakfast is over i would take each child one by one to go use the restroom, following by some learning activities. I really enjoy working with children. So many personalities. I love when the children can feel comfortable coming to me just to give me a hug or just to ramble about what happened at home. You let the children know u care just by listening to them.

Fruit Expert

Edible Arrangements

October 2021 to February 2022

Working at Edible arrangements I made nice looking fruit Bouquets. I dipped strawberries apples ,etc. While working there I got to interact with the customers and make sure their special day is special. I also delivered arrangements to the customers when needed. I multitasked throughout the store doing many different things.

Deli Associate

Breaux Mart - New Orleans, LA

June 2017 to July 2020

Working at Breaux Mart I had to make sure each customer was handled with the up most respect. I had to slice sandwich meats and cheeses. I also had to carter order for special events. I cooked the food the would go out for hot line. I made sure that my department was clean and well presentable.

Zookeeper

The Monkey Room - New Orleans, LA

July 2017 to December 2017

Working at the monkey room I worked with children of all ages. The Monkey Room is an indoor playground where you could let the little ones wear themselves out. I enjoy that job because I got to interact with them and also play with them. Most of the time they are wearing myself out, but at the end the parents are comfortable and the kids are getting tired. I also hosted party's and worked off tips. I had to time manager. I had to interact with the parties parents to make sure everything it ok. The parents do nothing. They could just sit back and watch the birthday boy/girl have an awesome birthday. I would sanitize down

the equipment every night after closing. I would vacuum the carpets and just make sure the place is ready to give off good energy.

Education

12th in General Studies

Livingston collegiate academy - New Orleans, LA
