- Invisalign

TAYLOR MILLS

DENTAL ASSISTANT

PROFILE

Hi! My name is Taylor Mills! I am 23 years old and I recently got married in October 2024, my husbands name is Matthew and we have a little dachshund named Layla! We are still in the early stages just trying to figure out life and have fun doing it! I have been a dental assistant for about 2 years, I graduated from GTCC in July of 2023, I hope to obtain a full time DAll position at a great office to call home for a long time. In my free time I spend as much time as possible with our family and friends, going out, traveling, or just having a lazy day at our friends pool.

Professionally I feel that I can add value to any office I am presented an opportunity at, being newly out of school I feel I am up to date on the new and improved procedures but in the field I know things are always changing and I have so much more to learn and I am excited to do so!
