## Professional Summary

---

Exceptionally experienced Handyman with over 15 years of carpentry, painting, drywall repair and flooring experience, who is an easy communicator with all his own tools, seeks to continue working in the trades in a setting where responsibility and accountability are meaningful to each team member and where the

team has one directive: to create and maintain an environment where the residents' experience at home is maximized.

## Work Experience

---

### **Lead Maintenance Technician**

Confidential-Aurora, CO

January 2025 to Present

For the 6 months leading up to today, I have been working as a Maintenance Technician locally, at an apartment complex with over 150 units. I enjoy the work and that is why I continue to seek employment in the same field. I am leaving the position exclusively because management undervalues my relevant experience. I can leave at any time with standard notice.

### **Self Employed Contractor**

InsideMan Residential Interiors-Aurora, CO

August 2010 to Present

In an effort to establish myself as a well-qualified and capable tradesman, I started my business in drywall repair and residential painting. After a short period, I learned and practiced entry-level carpentry and demonstrated talent while obtaining additional experience through unofficial apprenticeship and also a period of self-taught, intentional expansion of my skills. I am now proficient in carpentry, as a result of taking on frequent projects requiring me to install interior trim (baseboards, crown moulding and door casings), to lay plank-style floors (laminate and LVP), hanging doors and even constructing the occasional custom cabinet and fixing drawers. I eventually became a generalist or Handyman after frequent completion of light plumbing and light electrical tasks. I have the tools and the experience to support every category of work that I do.

### **UPS Package Handler**

UPS-Commerce City, CO

October 2023 to January 2024

PreLoad

Warehouse, Package Handler

Daily, my team (PreLoad) arrived very early, e.g. 2-3 a.m., and through our holiday 'Peak' season, I loaded the big brown delivery trucks according to a precise system so that the driver could leave the Hub no later than 9 a.m. I was recognized more than once for loading my trucks without error.

### **Maintenance Technician**

InterSolutions, LLC-Aurora, CO

February 2023 to October 2023

Completed make-readies and work orders in self-led, unsupervised role as Maintenance dept. team member at several Denver and Aurora apartment complexes while attached to a professional staffing agency.

### **Maintenance Technician and Painter**

The Orchards at Cherry Creek Apartments-Centennial, CO

August 2008 to December 2010

Painted all units as they were vacated, in a timely manner.

Performed Make-Readies on units as needed, to provide support to Maintenance Team.

Grounds upkeep and Snow removal

## Education

---

### **Marketing Management (B.B.A.)**

University of North Texas-Denton, TX

September 1989 to December 1991

### **U.S. Navy, (active duty) (United States Armed Forces)**

U.S.S. Dwight D. Eisenhower (CVN-69)-Atlantic, IA

July 1986 to June 1989

### **Liberal Arts & Sciences (Undergraduate Studies)**

University of Colorado-Boulder, CO

July 1984 to May 1986
